Questions	Answers
What does IDLO mean by recommendations/guidance? Does IDLO want a complete plan on how and when to implement recommendations, or they just want an opinion?	We don't need a timeline or sequence, but we need prioritization of the recommendations. That's usual for recommendations and guidance..
Does IDLO consider NGOs as partner institutions? If so, does IDLO intend to transition the management of the databases to these NGOs as well? Or, are the three main institutions (AGO, MoJ and Supreme Court) considered partners?	It's clear in the TOR that each of the databases is associated with different institutions. Some of them are associated with NGOs. Those databases are/or would need to be transferred to the NGOs.
Has this review (or similar reviews) ever been conducted before? if yes, who conducted it? and is IDLO willing to share the results with us if awarded the contract?	No.
